

# MARLY SKIN®

The original

The irritating skin protection against materials which damage and irritate the skin

## The ideal skin protection for hairstyling

### RELIABLE SKIN PROTECTION

- ✓ Easy application
- ✓ 4-hours of protection
- ✓ The skin feels normal
- ✓ Non-greasy, visible or perceptible
- ✓ Safe for the eyes, mouth, mucous membranes or food
- ✓ The skin can breath and perspire

Effective protection  
for the skin

Frequent exposure to water, oils, tensides, hairstylist chemicals, allergic aromas, disinfectants and aggressive substances mean permanent stress on your skin and hands. This includes occlusion by wearing gloves. This results in unpleasant skin irritations as well as reddening, fissures, rashes, swelling and flaking, up to allergic reactions!

The **MARLY SKIN®** active principle:  
Protection *in* the skin and not on the skin!

Clinically tested  
and confirmed

**MARLY SKIN®** protective skin foam creates a protective film on the top subcorneous layer and protects the skin from aggressive substances made of noxious substances and irritants. Ideal also with occluding gloves!
